Hyperledger Technical Community in China

Baohua Yang, *IBM*

Technical Working Group China

Founded at Dec, 2016

Group Goals

Help build China technical community

Promote the Hyperledger technical development

Technical Working Group China

Main Working Areas

- Technical Development
- Documentation & Education
- Adoptions & Collaboration
- Event Organization

Hyperledger projects in China involve global developer communities, trainings, bug fixes, and hackathons. They also include internships, education, user groups, and meetups. Key regions include Beijing, Shanghai, Hong Kong, and Taiwan. The community is growing and responding to various challenges.
